## **27 new works added to PM World Library**

### **PM World Collection grows to 5,043 project management articles, papers & other works by 1,960 authors in 90+ countries**

15 May 2024 – Dallas, London, Sydney – PM World has announced that 27 new articles, papers and other original works about program and project management have been added to the PM World Library (PMWL) this month. These contributions by 29 authors in 12 different countries were published in the May 2024 edition of the *PM World Journal* (PMWJ) at <https://peworldjournal.com/>. They can now be found among the most recent papers and articles on the PMWL home page at <https://peworldlibrary.net/>.

The new additions bring the total in the **PM World Collection** to 5,043 original works by 1,960 different authors located around the world. The collection is growing each month by 30-40 new works from many different authors; of the 29 authors this month, 5 were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at <http://peworldlibrary.net/author-showcase/>.

According to PMWJ Managing Editor David Pells, “I am especially pleased with the interview this month with Graziano Trasarti, president of ISIPM in Italy. We have been cooperating with ISIPM for over five years, initially thanks to the late Russ Archibald, then our friend and frequent author Massimo Pirozzi. PMWJ correspondent Alessandro Quagliarini in Rome keeps us apprised of ISIPM developments in his excellent reports on a bimonthly basis. Yasmina’s interview with Graziano has now provided additional and very interesting background information about ISIPM. I hope everyone reads it.”

New authors this month include: Susan Baldwin (USA), Gabriel Cadena (USA), Sebastien Montreuil (Canada), Jean Luc Ozoux (France) and Eddrika Russell (USA). New works by 24 authors already included in the library were also added.

“As everyone can see, much of our content each month is provided by regular and returning authors,” Pells adds. “Some of our regular authors are globally recognized authorities in the PM field. It is our honor to publish their works. I greatly appreciate the continuing contributions of our returning authors and hope that we can help them receive the recognition and respect they deserve for sharing their experiences and knowledge. Thank you to all of our authors and readers for supporting the PMWJ this month.”

The **PM World Library** is a global resource for continuous learning in program and project management. The PMWL is produced and maintained by PM World, Inc. which also produces the monthly *PM World Journal* (ISSN: 2330-4480), a free monthly digital publication featuring dozens of articles, papers and stories about projects and project management around the world.
