BIM Project Management Event in Madrid

Efficient project management is critical in the real estate world, where every detail counts for the success of an initiative. In this seminar on BIM Project Management, we will explore how the implementation of Building Information Modelling (BIM) is transforming project management. In Integrated BIM Project Management we will try to reflect on issues such as:

- How is BIM transforming the building process?
- Is the way you plan changing?
- What impact does it have on cost estimation and project budget management?
- How do you facilitate the integration of sustainable practices into the life cycle of real estate projects?
- How is BIM being used on site?

- What relevant information does BIM offer for the real estate developer in terms of monitoring and decision-making?

In Integrated BIM Project Management we will try to answer these questions and many others with the main references in this sector.

- Rafael González del Castillo (Moderator): CEO | Editeca
- Leticia Saucó Sevilla: Founder & CEO | Sach Consulting
- Fernando Tortajada: Managing Director | Binarq

The PMI Madrid Chapter continues in The Summer with its monthly meetings

The Board of Directors of the Madrid Chapter continues with its monthly meetings to maintain that need for communication and sharing with its members. These monthly meetings are attended by more than a hundred professionals each month, and it continues to be an opportunity for all members of the Chapter to make and maintain contacts.

A representation of the Madrid chapter was made at the European Global Summit held this year in Berlin by Manuel Ancizu, member of the Board of Directors of the PMI Madrid Spain chapter.

TODAY IS A GOOD DAY, and TOMORROW WILL BE BETTER!
