

# PRESS RELEASE

## AIPM Middle East Chapter

We are thrilled to announce the establishment of the Australian Institute of Project Management (AIPM) Middle East Chapter, based in the United Arab Emirates (UAE).

This momentous step marks the beginning of a new era, as the AIPM extends its reach into one of the most dynamic and rapidly growing regions of the world.

With this expansion, the AIPM is not just crossing borders; we are creating bridges. Our Middle East Chapter will bring our unique products, services, and professional standards to new markets, ensuring that project management excellence is accessible on a truly global scale.

For our members, this expansion opens up a wealth of opportunities. By connecting with peers and professionals across the Middle East, members can tap into new networks, gain insights into regional practices, and leverage the knowledge and expertise of a diverse international community. This Chapter will serve as a new hub for innovation, collaboration, and professional growth, providing the AIPM members and the project professionals with unparalleled value and support as they navigate the evolving landscape of project management.

Join us as we embark on this exciting journey, expanding our global footprint and bringing the benefits of the AIPM membership to more professionals worldwide. Together, we are shaping the future of project management.

**Ms Connie Beck**  
Chair of the Board

**Dr Darius Danesh**  
Chief Executive  
Officer
