

Discount Announced for Managing Risks in Projects, 2nd Edition

20% publisher's discount for new project risk management book by Dr. David Hillson now available

15 December 2024 – Oxfordshire, UK and Philadelphia, PA, USA – Routledge has announced a special discount for PMWJ readers of the latest book by Dr. David Hillson titled **Managing Risk in Projects, 2nd Edition**. Published in July 2024, this new book includes a concise description of current best practices in project risk management. Readers can use discount code **EFLY04** for a 20% discount

According to the Routledge release: Projects are risky undertakings, and risk management is recognised as an integral part of managing the project. *Managing Risk in Projects* places risk management in its proper context in the world of project management and beyond, emphasising the central concepts essential to understanding why and how risk management matters, and presenting proven practical approaches to addressing risk in any project.

The risk management world has changed significantly since the first edition, with advances in risk management practice reflected by changes in international standards and guidelines, as well as significant developments in their implementation. This second edition reflects these changes and has been completely updated to address progress in the practical application of risk management to projects. Two new chapters have been added, the first discussing how to manage risk in complex projects, and the second considering the role and influence of risk leaders outside the project arena in setting the context and environment for successful risk management. New material also addresses enterprise risk management and risky decision-making.
