50 new works added to PM World Library

PM World Collection grows to 6,065 project management articles, papers & other works by 2,440 authors in 90 countries

15 November 2026 – Dallas, TX, USA – PM World has announced that 50 new articles, papers and other original works about program and project management have been added to the PM World Library (PMWL) this month. These contributions by 60 difference authors in 24 different countries were published in the November 2026 edition of the *PM World Journal* (PMWJ) at https://pmworldjournal.com/. They can now be found among the most recent papers and articles on the PMWL home page at https://pmworldlibrary.net/.

The new additions bring the total in the PM World Collection to 5,065 original works by 2,440 different authors located around the world. The collection is growing each month by 50-60 new works from many different authors; of the 60 authors this month 24 were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at http://pmworldlibrary.net/author-showcase/.

According to PMWJ Managing Editor David Pells, "With the increased number of featured papers, grouping them into industry or topical subsections seems to be working. It's easier for readers to find research papers of interest each month. Now we are hoping to increase the number of papers related to sustainability and renewal projects in coming months."

New authors this month include: Yu Mon Mon Aung (UK), Elena Bulmer (Spain), Daniel Caceres (Peru), Avishek Chaudhury (Canada), Lauren Davenport (USA), Stanley Chigozie Duruibe (Nigeria), Victory Egbon (UK), Carlos Augusto Freitas (Brazil), Wiliam E. Hefley (USA), Justin Ibeawuchi (Nigeria), Yousef Isleem (UK), Yarina Bohdanivna Lozynska (Ukraine), Alexandra Oliveras Villalba (USA), Pillar Blanka (Hungary), Daniel Piret (Spain), Flavio Soriano (Brazil), Megan Thomson (USA/Canada), Artem Tokarevskikh (Germany), Nnatuanya Ugochukwu Okonkwo (Nigeria), William Viljoen (South Africa), and Rahmat Ilham Zazzali (Indonesia). New works by 36 previous authors were also included this month.

"We also seem to be receiving far more advisory and commentary articles than previously," Pells adds. "This is significant because the journal is intended to promote knowledge sharing by PM practitioners and professionals. More content in the journal means more learning resources in the library. There is a lot more experience and information being shared with our readers and members this year, which makes me very happy."

The **PM World Library** is a global resource for continuous learning in programme and project management. The PMWL is produced and maintained by PM World, Inc., which also produces the monthly ***PM World Journal*** *(ISSN: 2330-4880)*, a free monthly digital publication featuring dozens of articles, papers and stories about projects and project management around the world.
